## Data Science & Ethics

– *Browser Tracking* –

---

### **Exercise 1:** *Firefox Add-on*

Implement a Firefox Add-on that supplies trackers with fake/random data and information that might be used for browser tracking. Test your implementation using services such as e.g. *Panoptlick* (<https://panoptlick.eff.org/>).

- due date:** 18.07.2019 (EOB)  
**no. of students:** 2  
**deliverables:**
1. Implemenatation (including source code(s))
  2. Documentation (max. 10 pages)
  3. Presentation (10 – max. 15 minutes)
